OBJECTIVE

Work hard as a web developer at a great company that has an awesome work environment.

SKILLS

HTML, CSS, JavaScript, jQuery, AngularJS, Angular2.

EXPERIENCE

WEB DEVELOPER INTERN/NUVI
May 2017 – August 2017
At Nuvi I would build landing pages for the marketing team in a team of two. Would also update the main website(nuvi.com). Here I learned about ruby and ruby on rails and would use those with HTML, CSS, JavaScript, and jQuery.

PEER MENTOR/CODE TO SUCCESS
June 2017 – August 2017
As a peer mentor, I would help students at Orem High School learn how to code. The main languages that were taught were HTML, CSS, CoffeeScript, Ruby, and Ruby on Rails.

EDUCATION

WEB PROGRAMMING AND DEVELOPMENT/2017
Mountainland Applied Technology College
Here I learned a massive amount about web development. We would first learn a language and then build projects to really understand the language we were learning. You can find the big projects we built on my website.

HIGH SCHOOL/2017
Westlake High school
Graduated with a 3.9 GPA. Always in honors math and my senior year I took AP Calculus AB and passed the AP test with a 4. Also during my senior year, I went to the Mountainland Applied Technology College all year long.
